

Round the corner Sally

Oh round the corner we will go

Round the Corner Sally

Around Cape Horn to the ice and snow

Round the Corner Sally

Oh round the corner we will fly

Round the corner by 'n by

Oh I wish I had that girl in tow

I'd tow her off to Callao

Oh the finest place in Callao

Is Madame Gashees, you all do know

Madame she's a cheery soul

So round the corner we will go

Oh I wished I was at Madame Gashees

It's there I'd sit and take my ease

Sally Brown is the girl for me

She's waiting there by the mango tree

Oh Sally's hair it is coal black

She wears a skirt made from old sack

She says me son you'll rue the day

When the girls have worn your pay away

So round 'er up and stretch 'er luff

I think by god we've hauled enough
